Charging Indication

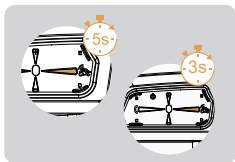

Intercom function

Intercom pairing

- 1 After switching on, press and hold (approx. 5 seconds) <A Button> until the red and blue lights alternately flash. Wait to connect to another intercom;
or long press (about 3s) <A Button>/<B Button>/<C Button>/<D Button>/<E Button>/<A Button+E Button> (Intercom F) until the red and blue lights flash alternately and wait for the connection to another intercom.

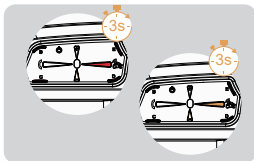

Red and blue lights alternately flash

- 2 The other V7 enters the pairing state using the same operation step, then two V7 would pair with each other.
Blue light flashing fast

Wait a few more moments and you will hear the "Di,Di,Di" tone.
At this point you can talk to each other and hear each other's voices.

Compatible with old model pairing steps

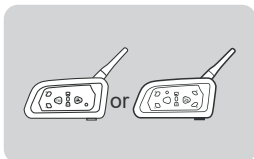

- 1 Simultaneously press and hold (approx. 3 seconds) <A Button>/<B Button>/< C Button>/< D Button>/<E Button> to start pairing, the red and blue lights flash alternately.

Or press and hold (for approx. 3 seconds)

<A Button +E Button> (Intercom F)

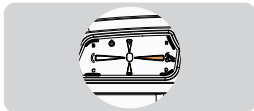

● Alternating red and blue lights

? "Di, Di, Di"

- 2 For old models (V6/V4) follow the instructions to enter the pairing state, and wait for successful pairing.

● Blue light flashing fast

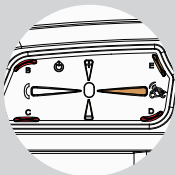

- 3 Click again on <A Button>/<B Button >/< C Button>/<D Button>/<E Button>/<A Button+ E Button> (Intercom F) to start pairing.

● Blue light flashing fast

Wait for a successful connection and start the intercom.

Intercom connection and disconnection

Once the intercom has been paired, you can click on the corresponding intercom button <A Button>/<B Button>/<C Button>/<D Button>/<E Button>/<A Button+E Button> (Intercom F) to connect or disconnect. The buttons didn't use for pairing would have no response when press.

Mobile phone pairing

This intercom supports connection to mobile phones for playing songs and making calls, and waking up voice assistants. Up to 2 mobile phones can be connected at the same time.

- 1 After power on, press and hold (approx. 5s) <phone button> until the red and blue lights flash alternately fast.

● Alternating red and blue lights flashing fast

- 2 Searches the device "V7" on your phone, click it and get to connect.

Pairing successful

● Blue slow speed double flashing lights
? "Di,Di,Di"

Current battery level is displayed on the phone's Bluetooth icon
(Mobile phone HFP connection required)

(IOS system need to enter the phone pairing again, in the system settings->Bluetooth, connect audio Bluetooth)

The next time you use the app, open it, click on the Bluetooth icon in the top right corner and click to select Intercom for connection from the paired devices.

APP provides intercom group, music control, FM control, switch off, check authenticity and other functions.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
