V6 support six riders use device, two riders talk at the same time, one main device are pair with 5 sub-devices, the main device can choose one to talk from A/B/C/D/E sub-devices.

Attention: The main device can not talk with other 5 devices at same time, it is choose one sub-device to talk. Choose from A/B/C/D/E, press main device's MOTOR/B/C/D/E button to switch, realize two riders talking. The other five sub-devices cannot talk between with each other.

Main

B

E

C

A

D
1. Pairing with A device

Long press the MOTOR buttons of main device and A device about 5s together, both device red & blue lights flash. After both of them find each other, one of them will automatically initiate a pairing connection, and the blue light will flash quickly. After a while, the blue light flashes slow simultaneously, two devices can normal talk. To pair the next sub-machine, press the MOTOR buttons first to disconnect.

2. Pairing with B device

Long press the B buttons of main device and B device about 5s together, both device red & blue lights flash. After both of them find each other, one of them will automatically initiate a pairing connection, and the blue light will flash quickly. After a while, the blue light flashes slow simultaneously, two devices can normal talk. To pair the next sub-machine, press the B buttons first to disconnect.

(C device, D device and E device have same pair way as above, pairing relative C button, D button and E button.)

Simply saying: The MOTOR/B/C/D/E buttons on the main device are for pairing with the MOTOR/B/C/D/E buttons on five other subdevices. After pairing, press Corresponding pairing buttons of main device to talk with other five subdevices.

Eg: When the main device needs to talk to the A sub-device, press the MOTOR button of the main device to connect and talk. If the main device needs to talk to the sub-device B, press the B button of the main device to switch and talk. C/D/E has the same way of operation as above.

Note: The next time use it, don't need to pair it again, just click the MOTOR/B/C/D/E buttons on the main device to connect and talk.

Precautions for use

1. Please install correctly, under raining situation, making sure headphone jack to fully inserted state with devices, to prevent the devices into the water.
2. In order to ensure the battery life, please use the standard charger.
