Mesh Intercom

When entering the Mesh intercom, Bluetooth music can be played at the same time

Mesh intercom is a multi-hop technology mesh network intercom (Communication frequency 470-488MHz). On account of large number of participants and unrestricted location, people are able to move at will within the effective range. It is not only superior to the traditional Bluetooth chain intercom, but has a longer transmission distance and better anti-interference ability.

Features: Intercom with up to 4 people, 5 channels in total. If participating in campaign mode as a listener, there is no limit to the number of people who can join the intercom in a listen-only manner

Microphone Mute

When using Mesh Intercom, you can mute the microphone with a short press of the <Volume + >+<Volume ->, so that the sound of your own voice will not be sent to others.

? "Microphone Mute"

Press <Volume + >+ <Volume - > to unmute.

? "Microphone unmute"

Note: Only valid for Mesh intercom.

Pairing Steps as Members:

- All devices first enter the intercom pairing state, long press <\volume + >+<Function Button>
 (about 5s) until you hear a prompt and the red light and blue light flash alternately.
 - Red and blue lights flash alternately
 - ? "Mesh Pairing"

- Take one of them as the pairing server, click the </olume +> + </olume -> , you will hear a "beep" sound, and the red and blue lights will flash alternately.
- Red and blue lights flash alternately

Wait a few moments and you hear the prompt "Channel n" from all the intercoms, you can start communicating and hear each other's voices.

When you power on the intercom for the next use, short press the <Volume +>+<Function Button>. You will hear the prompt "Join the Mesh." Wait for a moment, and you will hear the prompt "Channel n", you can talk to each other

Turn off MESH Intercom

Press and hold the <Volume +
>+<Function Button> (about 1s)
to turn off Mesh Intercom .
The voice prompts "Mesh Close".

Intercom Channel Switching

There are a total of 5 channels, which can be changed through the menu (as explained in the menu on page 3 of the manual). Channels can be switched forward or backward, note that the entire team needs to be on the same channel to talk to each

hen the signal is unstable, you can

If the device is powered off without turning the intercom off, the intercom will be automatically restored upon the next power-on

Pairing Steps as Listeners:

In the case that other intercoms have formed a team, you can become the listener of the team through pairing.

Take the intercom to be paired, enter listening mode pairing, open the menu (as explained in the menu on page 3 of the manual,), select Mesh listening mode pairing, and prompt "Mesh system listening mode pairing". The red light and blue light flash alternately.
